Tais Reis

Coordenador de Desenvolvimento | Gestão de Times
Multidisciplinares | Agile
Santa Catarina, Brazil

Summary

With over five years of experience at Netprecision, I have specialized in requirements gathering and the development of innovative solutions for engineering document management. Our team is dedicated to optimizing system usability and efficiency, ensuring that the implemented improvements result in more agile internal processes and an exceptional customer experience.

In my previous position as Product Owner at Softplan, I led high-impact projects, including the implementation of an SCCD system for ticket management, using agile and Scrum methodologies. Leading these initiatives and collaborating with multidisciplinary teams strengthened my skills in project management and software quality assurance.

Experience

Netprecision Ltda

7 years 2 months

Coordenador

September 2025 - Present (1 year)

São José, SC

I lead multidisciplinary technology teams (Dev, QA, Support, and Systems Analysts), focusing on transforming processes and fostering an Agile culture. I am passionate about solving complex problems through people management and the design of workflows that eliminate waste and rework.

I leverage strategic KPIs and indicators to guide the team's technical and operational growth, ensuring excellence throughout the entire Software Development Life Cycle (SDLC).
